WORK EXPERIENCE

10.2024 – 10.2025

Sigmaringer Straße 109 70567 Stuttgart

Internship at AEB: Support | Frontend Development with a Focus on Usability and Design

- Contributed to an internal product aimed at process optimization in close collaboration with the IT department; gained and applied foundational concepts of web development (HTML, CSS/SCSS, JavaScript, TypeScript) and gained insights into IT infrastructure and server management.
- Participated in UX research and interface prototyping for internal tools; analyzed the use of AI in UX processes to enhance user experience.
- Actively contributed to the implementation and development of user-friendly, responsive interfaces.
- Collaborated within a cross-functional team using agile methodologies (Scrum, Jira).
- Engaged in continuous self-learning and hands-on practice in UX, UI design, frontend frameworks, and product thinking.
- Supported documentation, planning, and task management—skills transferable to international project environments.

07.2023 - 01.2024

Communications Manager

Remote Work, Ukraine

- Create, edit, and manage documentation in accordance with internal procedures and standards.
- Strengthen client relationships through effective communication and ensure customer satisfaction.
- Develop and implement communication strategies and campaigns aligned with company goals and objectives.

SELF-STUDY & COURSES

- Regularly participated in workshops on UX, product thinking, and AI in design.
- Studied UI systems, design systems, and frontend (Udemy).
- Completed a course on AI Prompt Engineering (Udemy).
